Student Conduct and Standards of Discipline

1. As the President's designated representative, the Associate Vice President for Student Life, in accordance with campus regulations on disciplinary procedures, may impose discipline for violation of college-wide policies or campus regulations whether or not such violations are also violations of law, and whether or not proceedings are or have been pending in the courts involving the same acts.

Any student, faculty member, administrator or member of the College community may file a written complaint against a student with the Student Ombudsman, or other designee using the Indian River State College Grievance Form: [Student Grievance - Non Academic Complaint](#). The Coordinator of Student Conduct will manage student behavioral allegations that violate the Student Code of Conduct. Faculty and Staff at Indian River State College are encouraged to use the Student Conduct Incident Form:

https://cm.maxient.com/reportingform.php?IndianRiver&layout_id=0

to report violations using the Behavioral Assessment Response Team Chart. Once the complaint is reviewed a decision will be made by the Behavioral Assessment Response Team to move the case to for a Student Affairs Committee review. Any allegations should be submitted as soon as possible after the alleged violation takes place, preferably within seven (7) business days. Reports must be filed with the

Student Conduct Coordinator using the appropriate forms in this section within ninety (90) calendar days of the incident or knowledge about the incident.

2. IRSC reserves the right to exercise professional discretion to extend this filing time in cases of harassment, endangerment, stalking or other behaviors that pose a threat to the safety, welfare or well-being of another person or the IRSC community or where the delay is related to victimization issues. However, filing this report does not mean the College will formally charge the accused with a violation. Whenever possible the College will attempt to resolve the matter through an informal resolution.
3. Proceedings may be carried out prior to, simultaneously with, or following civil or criminal proceedings at the discretion of the Associate Vice President for Student Life.

As a respondent to allegations, in this process a student or member of a student organization has the right:

- To timely notice;
- Of a presumption that no violation occurred;
- To an impartial hearing officer;

- To present relevant information and question witnesses;
- To have an advisor or advocate who is not serving in any other role; to have an advisor, advocate or legal representation

present at formal and informal proceedings;

- To appeal the final decision;
 - To receive copies of accurate and complete records of the relevant disciplinary proceedings; and
 - To be notified through the code of conduct of the institution's time limit for charging them with violations, and the circumstances under which the time limit may be extended or waived.
4. A formal resolution may involve a committee. The committee shall take measures it deems necessary to assure that sufficient time has elapsed for the accused to prepare a defense. The accused will receive a written notice of the date, time, and place of the hearing not less than seven (7) business days prior to the committee. However, maximum time limits for scheduling a hearing may be extended at the discretion of the committee.
 5. The notice will include a clear statement of the charges.
 6. The Vice President for Student Success or (appointee) will present facts about the case.
 7. Both the accused and the accuser shall have the right to make statements in extenuation or rebuttal and to call witnesses on their behalf. Both shall also have the right to question witnesses. Upon certification of due and proper notice to the accused on the date and time the meeting is to be held, and if the accused fails to appear, the committee has the right to assume the accused has made the decision not to appear, and thereby waives the privilege of both statements in extenuation and rebuttal, all questioning of witnesses, and presentation of witnesses on their behalf.
 8. Any member of the College faculty, staff, or any student or student group may appear only with prior permission of the Vice President for Student Success or the committee.
 9. The Vice President for Student Success, or designee, may make a recommendation to the committee.
 10. A student may be disciplined for off-campus conduct if such conduct affects his suitability as a student.
 11. The Vice President for Student Success may appoint such faculty, student, other advisory committees, or individual advisors as he desires. The responsibility for the implementation of sanctions for misconduct rests with the Vice President for Student Success in his capacity as delegated representative of the President. The final responsibility for the determination of sanctions for student misconduct is under state statute and Board policy, the final decision is the responsibility of the President. The Student Affairs Committee is the committee that hears student disciplinary cases at the College for the purpose of investigation and the search for truth.
 12. As the delegated representative of the President, the Vice President for Student Success, at their discretion may immediately impose warning, suspension or recommend dismissal of a student pending investigation. Other standards of discipline can be

executed by the Vice President for Student Success or designee.

13. During the term of any discipline which does not terminate student status, students continue to be subject to College policies and campus regulations.
14. Within seven business days after a student has been disciplined, he may, if he wishes a review of his case, appeal to the Appeals Committee.
15. The accused student shall be notified of the date, time, and room set for the committee to convene for consideration of the case; and shall be notified by return receipt mail, courier delivered written notice, authorized telephone notice, or electronic message with commensurate documentation of same.

Student Standards of Discipline

Student Code of Conduct – refer to Board Policy: po5200

<https://go.boarddocs.com/fl/irsc/Board.nsf/vpublic?open#>

A student charged with misconduct shall receive notice from the Office of Student Life and shall have the opportunity for a hearing conducted by the Student Affairs Committee. The hearing shall be scheduled as promptly as possible without prejudicing the rights of the accused. The final decision regarding disciplinary action is the responsibility of the President.

The Associate Vice President for Student Life, or other designee indicated by the President, is authorized to administer all phases of student discipline, including, but not limited to, the following:

- 1) Receive all complaints against students;
- 2) Notify a student of any charges filed against him or her;
- 3) Determine on a case-by-case basis any off-campus activity in which College jurisdiction should be asserted;
- 4) Provide a student charged with misconduct the opportunity for a hearing;
- 5) Recommend disciplinary action to the Student Affairs Committee;
- 6) Implement sanctions for misconduct.

The President, or designee, shall have the authority to take immediate action to discipline students as deemed necessary, including the discretionary authority to impose warning, suspension, or recommend expulsion of a student pending a hearing or investigation.

Standards and guidelines established to assist students involved in the disciplinary process are described in AP-7.25, Student Disciplinary Guidelines and Procedures.

Administration of Student Discipline

See Student Conduct and Standards of Discipline Section on pages 8 to 11.

Grade Appeal

Criteria for final grade determination and assignment are the prerogative of the instructor of record for all College courses. Only the primary instructor can change the final grade. Students who are not satisfied with their grade should first consult with their instructor to resolve the grade dispute.

If this step has been taken and the matter remains unresolved, students may then meet with their instructor's Department Chair or Dean to have their grades reviewed and explained to them. After completing the above process, students who still wish to appeal their grade may meet with the Vice President presiding over the Dean. If the matter remains unresolved, the student must submit a request using a Grade Appeal Form: https://cm.maxient.com/reportingform.php?IndianaRiver&layout_id=48 or write to the Associate Vice President for Student Life at StudentAffairs@irsc.edu. If the Associate Vice President for Student Life finds the request reasonable and appropriately substantiated, the matter will be referred to the Academic Review Committee. A formal meeting will be scheduled to review the student's case, review any pertinent documentation and make an objective determination regarding the student's final grade. After the review is completed, the Academic Review Committee will make a recommendation to the College President who will notify the student in writing of the College's final decision.

Student Grievance Policy and Procedure

Students at Indian River State College have the right to seek redress of grievances through the proper channels. Any member of the College community may file a grievance

with the Office of Student Life. Any allegation should be submitted as soon as possible after the alleged violation takes place, preferably within seven business days. Reports must be filed with the Office of Student Life within ninety (90) calendar days of the incident or knowledge about the incident. IRSC reserves the right to exercise professional discretion to extend this filing time in cases of harassment, endangerment, stalking or other behaviors that pose a threat to the safety, welfare or well-being of another person or the IRSC community or where the delay is related to victimization issues. However, filing this report does not mean the College will formally charge the accused with a violation. Whenever possible the College will attempt to resolve the matter through an informal resolution.

The President has established the following formal review committees to handle all forms of student grievances:

- Academic Review Committee
- Admissions Review Committee
- Student Appeals Committee
- Student Affairs Committee

Students in the Criminal Justice Institute do not come under the jurisdiction of the review committees named in the previous paragraph. Criminal Justice students must follow the Process for Disciplinary Review as described in the Criminal Justice Policy Manual. (Rev. 2022)

The procedure for submitting a grievance:

Students seeking review of a grievance should make a written request for review to the Student Ombudsman/Student Advocate using the digital grievance form https://cm.maxient.com/reportingform.php?In dianRiver&layout_id=400 or by email at studentaffairs@irsc.edu. The Student Ombudsman is located at the Office of Student Life and can be reached by phone at (772) 462-4706.

As a respondent to allegations, in this process a student or member of a student organization has the following rights:

- To timely notice;
- Of a presumption that no violation occurred;
- To an impartial hearing officer;
- Against self-incrimination and to remain silent;
- To present relevant information and question witnesses;
- To have an advisor or advocate who is not serving in any other role; to have an advisor;
- To appeal the final decision;
- To receive copies of accurate and complete records of the relevant disciplinary proceedings; and
- To be notified through the code of conduct of the institution's time limit for charging them with violations, and the circumstances under which the time limit may be extended or waived.

Academic Review/Admission Review Committee

—This committee handles investigations into instructional matters, including but not limited to consideration of the waiver of academic rules. It is a committee which is established to hear cases and requests involving, among other things, petitions referred to the committee by any member of the College community and/or student body and also acts on all cases in which students do not meet stated requirements in matters concerning admissions or readmissions.

The committee's primary function is investigative; the committee makes no decision in the case of student petitions, but serves the sole purpose of recommending to the President various actions and conclusions including a candidate's appeal for readmission. The procedures and actions of this committee are established at the pleasure of the committee membership and generally follow the principles of Roberts Rules of Order.

The committee may entertain information from any resource it deems appropriate. This committee comprises one element in an established procedure for the purpose of due process at Indian River State College. In the course of its investigations the committee may bring to light other individuals or issues which it may decide are relevant and should be brought to bear on the case at hand.

A student, faculty member, or other member of the College community initiates an investigation by this committee by presenting a petition to the Associate Vice President for Student Life for academic review, admissions or appeals, for permission to present a case to the committee. The petition must state clearly in writing the petitioner's reasons for requesting an investigation. The Associate Vice President for Student Life is responsible for identifying the Committee Chair and membership. The quorum shall be three-quarters of the membership. The committee's recommendation is sent to the President or designated representative. The individual who initiated the investigation may appeal the committee's recommendation by petitioning the Associate Vice President for Student Life. (See following Appeals Committee description for conditions under which an appeal may be instituted.)

Appeals Committee—This committee considers appeals from individuals who have been subject to actions that are a result of recommendations from the Student Affairs Committee, the Academic Review Committee, and other committees. This committee will hear appeals on only two conditions:

- a. If the subsidiary committee has violated its own due process procedures.
- b. If there is substantive new evidence to be presented which was not available to the subsidiary committee.

An individual seeking a hearing before this committee must state clearly in writing, to the Associate Vice President for Student Life, the reasons for appeal. If the committee members decide that the appeal is sufficiently based on one of the two aforementioned conditions, they may decide to hear the appeal. This committee's function is investigative, and it makes no decision in the case of petitions but serves the sole purpose of recommending to the President one of two available options. If an appeal is heard, the committee may recommend:

- a. That the action of the subsidiary committee be upheld, or
- b. That the case be returned to the subsidiary committee for additional consideration of the new evidence.

This committee's procedures and actions are established at the pleasure of the membership and generally follow the principles of Roberts Rules of Order. Material witnesses, resource persons, and the individuals making appeals may be present during the hearing, up to the point of committee deliberations. The Chair of the Appeals Committee is the Vice President for Student Success. The individual seeking appeal has the right to have an advisor, advocate or legal representative as an advisor. If attorneys are to be present, the committee will meet only in the presence of the Board of Trustee's legal counsel.

Recommendations of the committee will be sent in private directly to the President of the College, and all activities and information within the committee hearing are completely confidential. This committee's activities are not subject to the Florida Sunshine Law as determined by a ruling of the Attorney General of the State of Florida. The membership of this committee is appointed by the President or his/ her designated representative; membership for this group is anonymous.

Student Affairs Committee—

The Student Affairs Committee is an administrative hearing committee composed of impartial participants without conflict of interests which investigates alleged violations of student affairs, including, but not limited to, disciplinary issues. Issues may be referred to this committee by any member of the College community. Three faculty members and three student members and their alternates are selected by the Associate Vice President for Student Life. A quorum shall be the entire membership. The Associate Vice President for Student Life prepares the agenda for and is present at each meeting to serve as a resource person for the committee. The committee is a recommending body that reports directly to the President.

As a result of the committee's recommendations or other information at their disposal, the President may act to exonerate, to warn, to censure, to reprimand, to place on probation, to suspend, to recommend expulsion or other actions they deem appropriate to the issues and findings. The Student Affairs Committee is an investigative and recommending group; it is not a judiciary body or court. Procedures and actions appropriate to a court are not necessarily appropriate to this body. Procedures are set by the committee. This committee is one element in an established procedure for due process at Indian River State College. In the course of investigation, the committee may bring to light other issues or identify individuals which may become a matter of investigation. If the student whose case was reviewed by the Student Affairs Committee wishes to pursue the issue further, the student may petition the Appeals Committee. (See the description of the Appeals Committee for the restrictions and limitations which apply).

Student Ombudsman

The IRSC Ombudsman/Student Advocate supports students in navigating institutional policies and procedures, facilitates effective communication, and assists in resolving conflicts through informal processes, apart from engagement in the College's formal grievance procedures. The Ombudsman/Student Advocate provides an initial point of contact to ensure student concerns and appeals regarding issues such as student access to courses, credit granted toward the degree and other matters are referred to the appropriate department to be resolved in a prompt, efficient and impartial manner. IRSC seeks to ensure that all students are treated in a fair and equitable manner.

The Ombudsman/Student Advocate assists students by:

- Listening and helping to resolve student concerns or complaints;
- Clarifying College policies and procedures;
- Referring issues and concerns to the appropriate department or office;
- Helping define available options;
- Recommending revisions in College policies and procedures as appropriate;
- Maintaining open and constructive communications; and
- Providing information and notification regarding opportunities for assistance and appeal, including the College's formal grievance procedures.

The IRSC Coordinator of Student Conduct serves as the Ombudsman/ Student Advocate and is accountable to the College President and Vice President for Student Success.

Student Expectations

Indian River State College resembles society as a whole. Students are treated as mature adults who are responsible for their own actions. There are rules and regulations that are followed for the benefit of all, and each person has a right to expect courtesy, integrity, and good citizenship in dealing with others.

This ideology is reflected in the IRSC Pioneer Promise:

Integrity, respect, scholarship and community are the core values that guide our conduct, performance and decisions at IRSC. As an IRSC student, I promise the following:

1. Integrity - to lead by example and practice personal and academic honesty.
2. Respect - to support the learning community by recognizing and respecting the rights and contributions of others.
3. Scholarship - to value learning as my primary purpose of being a member of the IRSC community.

4. Community - to strive to give back and embrace diversity through service and compassion for others.

Dishonesty, such as cheating, plagiarism, or knowingly furnishing false information to the College is subject to disciplinary action. Upon enrollment at Indian River State College, all students assume the responsibility of compliance and cooperation with the IRSC Student Code of Conduct, just as each student is responsible to the larger community, state, and nation in which he/she lives.

The College does not permit the possession or use of alcoholic beverages on campus or at any College function. Possession of illegal narcotics is not allowed and will result in suspension of the student from the College.

Gambling is also prohibited. Students who violate the College regulations or who display misconduct either on or off campus can expect appropriate disciplinary measures to be taken; these measures include disciplinary probation, suspension and expulsion. In all disciplinary matters, the decision of the President of Indian River State College is final.

Koblegard Student Union
