FLORIDA PUBLIC SAFETY INSTITUTE

BASIC TRAFFIC HOMICIDE INVESTIGATION COURSE (FDLE-098)

FPSI

Course Information

To attend this training the participant must be a Florida law enforcement officer or assistant state attorney. There duties must include the investigation of traffic crashes or the support of crash investigators.

The student should have an aptitude towards mathematics.

This class is 80 hours and is a salary incentive course. Training Authorization forms must be signed by agency representative authorizing incentive pay.

WHAT SHOULD I BRING?

All materials will be provided by FPSI.

WHAT ARE THE EXPENSES TO ATTEND?

Tuition for FDOT grant funded classes is covered fully by the grant. Housing and meals are covered ONLY for classes held at the Florida Public Safety Institute where the student is traveling over 50 miles to attend.

ENROLLMENT INFORMATION:

To view classes available, go to the Tallahassee State College website. To enroll for this course, click the link below:

Course Registration

For questions about registration or services we offer, contact the current program coordinator at:

Coordinator: Gerry Barrett
Email: traffsafe@tsc.fl.edu
Phone: (850)-201-7739
Florida Public Safety Institute

Class Dates and Location:

Course Dates: October 19-30, 2026
Course Time: 8:00 AM to 5:00 PM (Mon-Fri)
Location: Treasure Coast Public Safety Training Complex, Vernon Smith Building (PS1), Classroom #218
4600 Kirby Loop Road
Fort Pierce, Florida 34981
Instructor: Bobby Mullinax

COURSE DESCRIPTION:

The student will be refreshed on their duties and responsibilities at the scene of a crash. The student will learn how to identify evidence found on the roadway and from the vehicle.

An introduction to some of the important mathematical calculations and physical laws will be given. Also, the student will learn how to measure and diagram, and how to use photography and video to document the scene.

The student will also participate in practical exercises involving measuring and diagramming.

COURSE TOPICS INCLUDE:

- Physical evidence from the roadway
- Physical evidence from the vehicle
- Frictional forces and acceleration
- Determining speeds from skid mark evidence
- Crash scene photography
- Methods of measuring crash scenes
- Diagramming scenes and use of traffic templates
- Case preparation

INDIAN RIVER STATE COLLEGE

COMMAND LEADERSHIP INSTITUTE

FORT PIERCE, FL

The Command Leadership Institute (CLI) is a dynamic and challenging program uniquely designed to prepare law enforcement leaders for command level positions. The CLI provides real-life, contemporary, best-practice strategies and techniques for those who are already commanders or are aspiring to a command level assignment. CLI faculty members are passionate instructors who have executive level law enforcement and leadership experience.

CLI students will be engaged in such topics as: credibility, command discipline, liability, problem employees, and leading change within an organization. The Command Leadership Institute is student-centered with a high degree of student involvement.

GLOCK PROFESSIONAL TRAINING

MOS (I-OC) Operator Course

November 4-5, 2026 | 8:00 a.m. - 5:00 p.m. |
Treasure Coast Public Safety Training Complex, PS7 Range Building

2-Day Operator Course | $400 Per Student | Certificate Issued Upon Successful Completion

This flyer is for the **GLOCK (MOS I-OC) Operator Course** only, designed for eligible public safety and qualified participants seeking to strengthen practical pistol skills with either iron sights or MOS configurations.

GLOCK (MOS I-OC) OPERATOR COURSE

- Range procedures and commands
- Nomenclature, ballistics, dry practice, and pistol presentation
- Fundamentals of marksmanship and red dot considerations
- Manipulation, ready positions, malfunctions, target engagements, and shooting on the move

This dynamic operator course is intended for public safety professionals who have successfully completed a basic pistol course and want to strengthen practical pistol skills with either iron sights or MOS configurations.

EQUIPMENT / REQUIREMENTS

- GLOCK pistol with optic mounted or iron sights; no modification other than sights or external cosmetics
- Belt capable of supporting holster, pistol, and magazines
- Magazine carrier capable of carrying two magazines
- Minimum of 3 magazines
- 1000 rounds of factory ammunition
- Strong-side holster with trigger guard
- Appropriate range attire
- Eye and hearing protection, plus hat or ball cap with brim or bill
- Current Concealed Carry Permit or Statement of No Criminal History from a law enforcement agency

REGISTRATION

Register through the **GLOCK Professional Training website.** For local hosting information, contact the Indian River State College Criminal Justice Institute.

Course Time: 8:00 AM to 5:00 PM (Mon-Fri)
Location: Treasure Coast Public Safety Training Complex, Vernon Smith Building (PS1), Classroom #211
4600 Kirby Loop Road
Fort Pierce, Florida 34981
Instructor: William Hitchcock

COURSE DESCRIPTION:

This is the CJSTC and FDLE certified Speed Measurement Course (1158) to become a certified radar and laser operator in the State of Florida. The student will learn to identify targets and become familiar with speed estimates. The student will conduct testing procedures on the equipment to ensure proper operation. The student will learn the legal basis for the principles of Doppler radar and the proper vernacular for courtroom testimony.

There will be at least 12 hours of hands-on practical exercises as part of the course.

It is recommended that the students bring radar and laser units for the field exercises (if available).

FLORIDA PUBLIC SAFETY INSTITUTE

ADVANCED TRAFFIC HOMICIDE INVESTIGATION COURSE (FDLE-087)

FPSI

Course Information

To attend this training the participant must be a Florida law enforcement officer or assistant state attorney. There duties must include the investigation of traffic crashes or the support of crash investigators.

The student must have taken and passed Basic Traffic Homicide, or it's equivalent. Participants should have an aptitude towards mathematics.

This class is 80 hours and is a salary incentive course. Training Authorization forms must be signed by agency representative authorizing incentive pay.

WHAT SHOULD I BRING?

Students should bring calculator, equation handbook, crash template, and manuals provided at BASIC THI class.

WHAT ARE THE EXPENSES TO ATTEND?

Tuition for FDOT grant funded classes is covered fully by the grant. Housing and meals are covered ONLY for classes held at the Florida Public Safety Institute where the student is traveling over 50 miles to attend.

ENROLLMENT INFORMATION:

To view classes available, go to the Tallahassee State College website. To enroll for this course, click the link below:

Course Registration

Florida Public Safety Institute

Class Dates and Location:

Course Dates: November 30 - December 11, 2026
Course Time: 8:00 AM to 5:00 PM (Mon-Fri)
Location: Treasure Coast Public Safety Training Complex, Vernon Smith Building (PS1), Classroom #220
4600 Kirby Loop Road
Fort Pierce, Florida 34981
Instructor: Bobby Mullinax

COURSE DESCRIPTION:

In this course the student will learn additional laws of physics that apply to speed, acceleration, and frictional forces. The dynamics of a vehicle in motion with respect to airborne situations such as falls vaults, and flips will be covered.

An introduction to linear momentum will complete this vehicle dynamics section. The student will also learn to analyze impact damage as it relates to vehicle and occupant movement. This course is ideal for the officer on a career track to become a traffic crash Reconstructionist.

An exercise in the measurement of vehicle crush deformation will be conducted.

COURSE TOPICS INCLUDE:

- Vehicle lamp examination
- Vehicle tire evaluation
- Vehicle dynamics; motion, distance, and time
- Vehicle airborne dynamics
- Vehicle damage evaluation
- Conservation of momentum

FLORIDA PUBLIC SAFETY INSTITUTE

TRAFFIC CRASH RECONSTRUCTION (FDLE-088)

FPSI

Course Information

To attend this training the participant must be a Florida law enforcement officer or assistant state attorney. There duties must include the investigation of traffic crashes or the support of crash investigators.

The student must have taken and passed Basic Traffic Homicide and Advanced Traffic Homicide, or it's equivalent. Certificates of completion may be required.

This class is 80 hours and is a salary incentive course. Training Authorization forms must be signed by agency representative authorizing incentive pay.

WHAT SHOULD I BRING?

You will need a scientific calculator, your equation guide and a traffic template issued at the pre-requisite classes. All other materials will be provided by FPSI.

WHAT ARE THE EXPENSES TO ATTEND?

Tuition for FDOT grant funded classes is covered fully by the grant. Housing and meals are covered ONLY for classes held at the Florida Public Safety Institute where the student is traveling over 50 miles to attend.

Florida Public Safety Institute

Class Dates and Location:

Course Dates: February 1-12, 2027
Course Time: 8:00 AM to 5:00 PM (Mon-Fri)
Location: Treasure Coast Public Safety Training Complex, Vernon Smith Building (PS1), Classroom #211
4600 Kirby Loop Road,
Fort Pierce, Florida 34981
Instructor: Bobby Mullinax

COURSE DESCRIPTION:

Combined with the supportive training of Basic Traffic Homicide Investigation, and Advanced Traffic Crash Investigation, the student completing this training is prepared to become an expert in court concerning traffic crashes, allowing for the admission of expert opinions in how a traffic crash occurred.

In this course the student will receive training in formula derivations; the determination of the root scientific principle from which the traffic crash formula is derived.

The student will learn Newton's laws of motion in the explanation of vehicle movement. Also the student will be taught angular applications to conservation of momentum and vector sum analysis.

COURSE TOPICS INCLUDE:

- Formula derivation
- Vehicle speed analysis
- Newton's laws of motion
- Conservation of momentum using angular collisions
- Extensive practical exercises and project work

GLOCK PROFESSIONAL TRAINING
